## EXPERIENCE

OPEN INSTITUTE AFRICA, Hybrid, *Nairobi, Kenya*
**Software Developer/Project Manager** | Jan 2023 – Present
- I developed concept notes, problem-framing tools, and use cases that I later used in problem identification.
- I developed wireframes and mockups for mobile and web using Figma.
- I created documentation and a user manual for digital health apps and regulations, which will be utilised for the migration of digital health apps in Africa.

MICROVERSE, *Remote*
**Mentor (Volunteer)** | May 2022 – Jun 2022
- I mentored four junior web developers in project management, offering technical guidance through code reviews and providing social support.
- I proposed improvements to program organisation to improve code quality by 5% in the quarter of work and performance.
- I provided advice and tips on maintaining motivation to maintain longevity in the program.

Abolger Enterprises, *Nairobi, Kenya*
**Founder, CEO** | Feb 2016 – Present
- I developed websites for small and medium-sized enterprises (SMEs), thereby enhancing their business visibility and boosting sales by 10% within one year.

Nairobits Trust, *Nairobi, Kenya*
**ICT Consultant** | Feb 2018 – Jan 2019
- I participated in the development of a curriculum and provided training in ICT skills to 40 girls from underprivileged communities. This effort resulted in 32 girls securing employment within three months.

Faraja Cancer Support Trust, *Nairobi, Kenya*
**ICT volunteer** | Feb 2016 – Present
- I developed a data collection system, resulting in increased security and data privacy of medical records, and the organisation is now paperless.
- I won Volunteer of the Year in 2018, 2019, and 2021.

- Ruby on Rails bank app
**Ruby API with React**
(ReactAPI,  Rails API)
**Ruby on Rails (link)**
- Ruby on Rails Lifeline Application

## PROFESSIONAL SUMMARY

I am a passionate project manager and a full-stack web developer. My enthusiasm has led me to

## EDUCATION

UNIVERSITY OF WARWICK | Sept 2023 – Sept 2023
**Certificate in Digital Health Apps and Regulation,** *Full-Time*
- Designed and designed health applications.

MICROVERSE |  Mar 2022 – Oct 2022
**Remote Full Stack Web Development Program***, Full-Time*
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- I developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

APPIN | Jan 2010 – Aug 2011
**Diploma, Information Security and Ethica Hacking,** *Full Time*
- Security of software and hardware

Kenya Methodist University | Jan 2010 – Aug 2011
**Diploma, Computer Information Systems,** *Full Time*
- Hardware, and Software Development training.

successfully lead several teams. I have a strong commitment to writing clean code and creating accessible designs. I am skilled in pair programming and excel at remote work. I am fluent in multiple languages, frameworks, and technologies, allowing me to quickly and efficiently adapt to new tools. Furthermore, I have achieved success in various software competitions, including hackathons such as the Open Institute and Value Chain, which have significantly contributed to enhancing my skills.
