Taskbridge ([link](#))

Muranga Seal([link](#))

- Murang'a Seals Website

Ruby API with React

([ReactAPI](#), [Rails API](#))

Ruby on Rails ([link](#))

- Lifeline Medical Records application

PROFESSIONAL SUMMARY

I am a passionate project

- Regularly update the website and software, thus easing everyday running.
- Update, service and regularly update the hardware and software at Dojo.
- Automation of tasks

Abolger Enterprises, *Nairobi, Kenya*

Founder, CEO | Feb 2016 – Present

- Developed websites for small and medium-sized enterprises (SMEs), thereby enhancing their business visibility and boosting sales by 10% within one year.

Nairobis Trust, *Nairobi, Kenya*

ICT Consultant | Feb 2018 – Jan 2019

- I participated in developing a curriculum and provided training in ICT skills to 40 girls from underprivileged communities. This effort resulted in 32 girls securing employment within three months.

Faraja Cancer Support Trust, *Nairobi, Kenya*

ICT volunteer | Feb 2016 – Present

- I developed a data collection system, resulting in increased security and data privacy of medical records, and the organization is now paperless.
- I won Volunteer of the Year in 2018, 2019, and 2021.

manager and a full-stack web developer. My enthusiasm has led me to successfully lead several teams. I have a strong commitment to writing clean code and creating accessible designs. I am skilled in pair programming and excel at remote work. I am fluent in multiple languages, frameworks, and technologies, allowing me to quickly and efficiently adapt to new tools. Furthermore, I have succeeded in various software competitions, including hackathons such as the Open Institute and Value Chain, which have significantly enhanced my skills.

EDUCATION

UNIVERSITY OF WARWICK | Sept 2023 – Sept 2023

Certificate in Digital Health Apps and Regulation, Full-Time

- Designed and designed health applications.

MICROVERSE | Mar 2022 – Oct 2022

Remote Full Stack Web Development Program, Full-Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- I developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

INSTITUTE OF SOFTWARE TECHNOLOGY - APPIN | Sept 2012 – Feb 2013

Diploma, Information Security and Ethical Hacking, Full Time

- Security of software and hardware

Kenya Methodist University | Jan 2010 – Aug 2011

Diploma, Computer Information Systems, Full Time

- Hardware, and Software Development training.
